Cappadocia Tour

Hos geldiniz! Welcome ...to Cappadocia, the amazing wonderland right in the middle of Turkey

In an extraordinary meeting of nature's artistic splendor and humanity's resourcefulness, Cappadocia is one of those rare places that must be experienced at least once in a lifetime. With soaring rock formations, uniquely-shaped landscapes, splendid walking trails, mysterious underground cities and rock-cut churches, Cappadocia is the must-see destination in Turkey.

Located just one hour away from Istanbul or Izmir by plane, adding this wonder of nature to your Turkey itinerary couldn't be easier. Turkish Heritage Travel is your local expert in all things Cappadocia - allow us to tailor-make your entire Turkey experience and be your regional specialists in Cappadocia.

WHERE IS CAPPADOCIA?

Cappadocia Map
Rich in history going back to prehistoric times (4000 years) and once a province of the Roman Empire, Cappadocia is now the sprawling area of central Turkey which lies between Isparta in the west, Eregli in the east and Hattis in the south. Modern Cappadocia is an incredible place - criss-crossed with valleys and dotted with dramatic rock formations. Whatever your expectations of travel style, it's impossible to go home disappointed.

Tasik Heritage Travel, located in Gorenne - a village in the heart of Cappadocia (and where most travelers prefer to stay) - is your local authority on the Cappadocia region. We offer a variety of tailor-made tours and organize travel itineraries for all of Turkey.

Gorenne and the Cappadocia region is easily accessible from all parts of Turkey. Once here you can easily comfortably explore all the highlights and the hidden gems that this area is famous for. By air the introduction to Cappadocia is gently floating above the rugged landscape in a hot air balloon. Known world-wide as one of the best places to fly hot air balloons, you will enjoy just above clouds between the famous hot air balloons and up and over the rippled ridges. Alternatively, saddle up and travel like the first European explorers and the business nomads on horseback through the many trails and valleys. The valleys and villages of Cappadocia are also easy to explore on foot. We offer several guided hiking tours as well as early tours (private and group) to see the highlights of the region.

THE FAIRY CHIMNEYS

Fairy Chimneys in Cappadocia: In the days before tourism local people called the strange rock cones that surrounded them 'kales', or 'castles'. Nowadays these amazing structures are usually called 'peribacalar', or 'fairy chimneys'. They come in an extraordinary range of shapes and sizes but most are tall and phallic-shaped with a cap of harder stone that protects the softer rock underneath from erosion. Eventually these caps fall off, whereupon the wind and rain start to whittle away the cone until eventually it, too, collapses.
