

CALL FOR MASTER'S AND DOCTORATE FOR INTERNATIONAL STUDENTS

University of Necmettin Erbakan Institute of Educational Sciences

Necmettin Erbakan University Institute of Educational Sciences is a leading and reputable educational institution in Türkiye. The Institute takes a leading role in preparing students for future careers and improving educational quality.

Our academic staff is made up of qualified academics who are experts in their respective fields. Using cutting-edge educational technology, the Institute provides our students with supportive education programs. In this way, our students advance their knowledge and skills in their fields, allowing them to compete on a global scale.

International students can also take advantage of a variety of opportunities at our Institute. By receiving Turkish language education, students can learn about Turkish culture, history, and social life, as well as improve their ability to communicate in Türkiye.

Our educational programs are designed to support students' academic, social, and personal development while adhering to international standards. Our graduates, who specialize in various disciplines, can compete on a global scale with their knowledge and experience.

Through the participation of international students in our Institute, Necmettin Erbakan University Institute of Educational Sciences aims to increase cultural diversity and strengthen international cooperation. As a result, we hope to contribute to Türkiye's cultural and academic heritage.

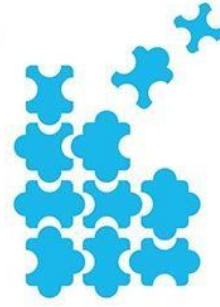

Our mission is to launch programs based on closely monitoring and developing education and training approaches recognized in our country, to conduct research to improve overall educational quality, and to contribute to science. In this way, we hope to be an Institute that values and supports interdisciplinary studies by taking a researcher-centered, questioning, and critical approach, as well as to promote high-quality scientific activities that benefit humanity.

Our vision is to be an Institute that not only values national development in the fields of education, science, culture, and art, but also to contribute to the highest level of knowledge production, use, and dissemination, and to help our country rise above the level of developed and developed countries. In this regard, we strive to be a reputable Institute by providing quality service to all segments of society, particularly students and faculty members. Furthermore, it is one of our goals to be an institution that has a social impact outside of education and science by contributing to the social and cultural development of society through cultural and artistic activities.

Why Should You Attend Necmettin Erbakan University's Institute of Educational Sciences?

The Necmettin Erbakan University Institute of Educational Sciences provides a variety of programs to meet the needs of students interested in pursuing a career in education. The programs are designed to provide students with the knowledge and skills they need to become effective educators and researchers. Our institute offers master's programs in early childhood education, classroom education, mathematics and science education, Turkish and social sciences education, guidance and psychological counseling, special education, and many other fields. Doctoral programs are also available at the Institute.

With the advantageous options it provides for international students, Necmettin Erbakan University Institute of Educational Sciences overlaps with the objectives of the Bologna process.

EUROPEAN
Higher Education Area

This process includes a number of reforms aimed at improving the quality and transparency of higher education in European countries. ECTS is a system developed as part of the Bologna process that provides international validity to courses taken by students in higher education institutions and facilitates credit transfer. The compatibility of Necmettin Erbakan University Institute of Educational Sciences with this system provides international students with the opportunity to receive a high-quality education while also increasing their international recognition and job opportunities. Graduates can contribute positively to their careers because they have an internationally recognized ECTS diploma.

Necmettin Erbakan University Institute of Educational Sciences provides numerous benefits to international students. For starters, students are provided with an interactive educational environment through the use of modern educational technologies. Students actively participate in the courses and learn more effectively as a result.

Our Institute provides educational programs to help students develop academically, socially, and personally. In addition, there are programs that teach students about Turkish culture, history, and social life.

Necmettin Erbakan University is one of Türkiye's most prestigious universities, located in Konya, one of the country's most developed cities. As a result, our students will be able to learn about Turkish culture while also receiving a modern education.

Our educational programs are designed in accordance with international standards, ensuring that students have the knowledge and experience to compete globally. Our academic staff is made up of qualified academics who are experts in their fields and work hard to provide our students with the best education possible.

Furthermore, through the participation of international students in our Institute, we hope to strengthen international cooperation by increasing cultural diversity. As a result of meeting students from other cultures, our students will have the opportunity to interact interculturally.

We also participate in the European Union Erasmus programme as the Necmettin Erbakan University Institute of Educational Sciences. This program allows our students to participate in exchange programs with universities around the world and gain international experience. As a result, our students have the opportunity to learn about not only the Turkish education system, but also the education systems of other countries.

We, at Necmettin Erbakan University Institute of Educational Sciences, assist our international students in both their academic and personal lives. We assist our students with housing, health, social activities, and Turkish culture. Furthermore, because of the activities and courses offered in different languages at our university, our students can adjust to Turkish culture more quickly.

We have a coordinator office for our international students at Necmettin Erbakan University Institute of Educational Sciences, and this office is designed to help our international students.

The ethics committee at Necmettin Erbakan University places a high value on ethical evaluations in scientific research. This board meets on a regular basis to ensure that research meets ethical standards, and our students and faculty members carry out these processes online. Necmettin Erbakan University places a high value on the quality and integrity of its scientific research.

Why Should You Choose Konya?

Throughout history, Konya has been home to numerous important civilisations. Çatalhöyük, for example, is one of the world's oldest settlements and is located about 50 kilometers west of Konya. This archaeologically significant historical settlement dates back to 7500 BC.

Konya is also the location of the historical city of Kilistra. Kilistra was an important city during the Roman Empire, and many Roman structures can still be found there. These historical structures provide students with a one-of-a-kind cultural experience.

With a population of approximately 2.4 million as of 2021, Konya is Türkiye's sixth most populous city. Konya is also linked to Türkiye's high-speed train network, making it easy to reach major cities such as Ankara, Istanbul, Eskişehir, and Bursa. Several airline companies use Konya Airport, and there are both international and domestic flights. Furthermore, bus services are quite common, and it is possible to travel to other cities in Türkiye on a budget.

Konya was the capital of the Seljuk State and one of the most important centers of Islamic culture. As a result, the city has many historical and cultural structures. The most important tourist attractions in Konya are the Mevlana Museum, Ince Minareli Madrasa, Alaaddin Hill, and Selimiye Mosque.

Konya is also well-known for its historical and cultural values, including Mevlana Celeleddin Rumi. Mevlana was well-known for his poems and teachings that reflected universal values like human love, tolerance, brotherhood, and peace. The city is rich in cultural heritage, including the tomb of Mevlana and the Mevlana Museum. Konya also has a diverse cultural offering, including Turkish cuisine and handicrafts.

Konya is a modern educational center. The city's universities, particularly Necmettin Erbakan University, offer bachelor's, master's, and doctoral programs in a variety of fields. Furthermore, the number of international students at universities is quite high, allowing students to meet people from various cultures and study in an international setting.

Konya is located in the geographical center of Türkiye and thus has easy access to other cities. Other major cities, such as Ankara, Istanbul, Antalya, and Izmir, are easily accessible by high-speed train or bus.

Konya is an excellent place to immerse yourself in Turkish culture and lifestyle. Traditional Turkish food and desserts, handicrafts, and folk dances are just a few of the cultural experiences available in Konya. Furthermore, the people of Konya are friendly and welcoming to students.

Konya is also considered a highly developed city in terms of education. The Ministry of National Education has 2836 educational institutions, 35570 teachers, and 543379 students. This situation provides a wide range of opportunities for graduate students interested in conducting educational research in Konya.

Konya is one of Türkiye's leading university cities, with five universities, three of which are public and two of which are private. Necmettin Erbakan University, Konya Technical University, Selçuk University, and KTO Karatay University are among these institutions. Konya has approximately 150 thousand university students in total. This figure also reflects the

city's student-friendly structure and young population. Konya is also a popular city due to its excellent educational opportunities and low living costs.

The permissions for educational research are quickly granted by the Konya Provincial Directorate of National Education. In this way, while studying at our institute, our students can contribute to the world of education by conducting research with their counsellors.

Konya is one of Türkiye's most developed cities, with an excellent transportation infrastructure. Students can easily and affordably get around the city thanks to the city's tram system. There are also city buses, minibuses, and taxis as options. The transportation costs in Konya are also very low. Transport services are provided at a cost that is affordable to students. By reducing traffic in the city, the light rail system provides faster and more economical transportation. As a result, students can keep their living expenses in Konya to a minimum during their academic career.

Konya is an important cultural city in Türkiye, hosting a variety of cultural and artistic events. Traditional Turkish arts such as marbling, illumination, calligraphy, and miniature are practiced in the city, as are music genres such as Turkish Folk Music and Turkish Art Music. The annual Mevlana Cultural Centre International eb-i Arus Ceremonies, held on the anniversary of Mevlana's vuslat, are an important event attended by people from all over the world.

Why should you choose Türkiye?

Türkiye is a popular tourist destination due to its history, culture, geography, educational quality, hospitality, and multicultural structure. Students who want to study in Türkiye can take advantage of the many benefits that the country has to offer.

With recent educational developments, Türkiye, which has world-class educational institutions, has emerged as one of the world's leading countries. Many Turkish universities are ranked highly in international rankings. Türkiye's universities offer a wide range of

undergraduate and graduate programs, particularly in engineering, medicine, business, social sciences, and education.

Türkiye provides students with international exposure. Türkiye's structure, which brings together different cultures and encourages tolerance, provides cultural enrichment for students. International students in Türkiye will find a welcoming environment in which to feel at ease.

Türkiye serves as a link between Europe, Asia, and Africa. As a result, students who study in Türkiye have a significant advantage when pursuing careers in other countries. Because Türkiye is home to the world's leading companies and international organizations, a Turkish education provides students with international career opportunities.

In terms of living costs, Türkiye is also a very appealing country for international students. The cost of living in Türkiye is lower than in other European countries, particularly in large cities such as Konya. Basic necessities such as lodging, food and beverages, and transportation are reasonably priced. International students studying in Türkiye can also take advantage of student discounts. There are benefits such as discounted public transportation and student ticket prices in museums and historical sites. As a result, Türkiye provides a cost-effective option for students.

Scholarships

Türkiye Scholarships is a government-funded international scholarship program. Scholarships are available to international students at the associate, bachelor's, master's, and doctoral levels of higher education through this program. Through a people-oriented approach, Türkiye Scholarships aim to improve mutual understanding with other countries and contribute to global knowledge. Individual candidates must apply online at

www.turkiyeburslari.gov.tr

Accommodation

Accommodation for international students at Necmettin Erbakan University Institute of Educational Sciences is as follows:

Campus Housing: Our university's Köyceğiz Campus has newly built male and female dormitories with a total capacity of 3,000 students.

These housing facilities are administered by the Ministry of Youth and Sports. For the academic year 2022-2023, the accommodation fee at dormitories belonging to the Ministry of Youth and Sports ranged between 250 and 450 Turkish Lira. Included in the dormitory fee are breakfast and dinner. To utilize these dormitory facilities, students must submit an application according to the schedule announced by the Ministry of Youth and Sports. **Private Dormitories:** Private dormitories also provide lodging services.

Private Housing: Students can meet their housing needs by renting a house in Konya at their leisure. The majority of students meet their housing needs by renting an apartment and splitting the costs.

Food and Beverage Services

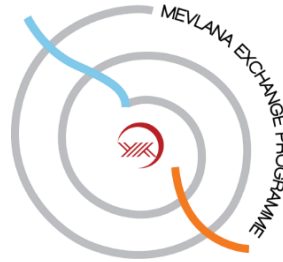

At our university, the Department of Health, Culture, and Sports operates student cafeterias. With their pre-paid student cards, students can enjoy lunch and dinner at reasonable prices. By utilizing pre-paid student cards, students can indulge in delicious lunch and dinner meals at the current price of 7 Turkish liras, making it an economical choice for their daily sustenance.

In addition to dining halls, our campuses have cafeterias and canteens that provide snacks and beverages throughout the day.

The following applies to international students:

Our university's canteens offer reasonably priced lunch and dinner meals for prepayment with student ID cards. There are additional food service facilities, such as cafeterias and canteens, that provide snacks and beverages throughout the day.

Coordination Office for International Relations

Our university places a high value on internationalization. Our office is divided into several sections, including the Erasmus, Mevlana, and Farabi Exchange Programmes Offices, as well as the International Student and Foreign Turkish Student Coordination Offices. We have increased our international student quota by 100% and reduced tuition fees by 50% while hosting approximately 2000 international students from 92 different countries. We also offer the option of applying through YS exams, international exam results, and high school diploma grade point average.

The Office of International Students provides services such as housing, cultural orientation guidance, and connections to campus resources and events to NEU's international students on a continuous basis. Our office advises students from over 90 countries on housing and residency issues, assists with cultural adjustment, and connects students to resources and events on campus and in the surrounding community.

More than 600 students and 200 staff benefited from Erasmus Exchange Programmes between 2014 and 2023, while more than 50 students and staff exchanged as a result of collaborations with 11 different countries under Mevlana Exchange Agreements. In addition to Erasmus, we have bilateral protocol agreements (MoU) with over 48 universities around the world, and we place a high value on joint scientific activities, student and academic staff exchanges with these institutions.

Turkish Education Centre (TÖMER)

Foreign nationals applying to graduate programmes where Turkish language instruction is provided must have graduated from an undergraduate or graduate programme teaching Turkish in Turkey or abroad, or they must present an official document proving that they scored at least C1 on the Turkish proficiency exam administered by Yunus Emre Institute or one of the Turkish language teaching centres approved by the Council of Higher Education. If foreign applicants who do not meet these requirements wish to learn Turkish, they will be granted a one-year leave for language study. However, foreign candidates who do not pass the Turkish exams to be held within a year will lose their eligibility to enroll in master's, doctoral, and art proficiency programs.

Within Necmettin Erbakan University, the Turkish Language Teaching Application and Research Centre (TOMER) was established to teach Turkish. The center is one of the language centers in Turkey and around the world. Our center offers Turkish classes to assist foreign students who wish to learn the language. TOMER also teaches vocabulary and language skills at the elementary, intermediate, and advanced levels in accordance with the European Language Development File (ELP) criteria.

The Placement Test and Turkish Proficiency Exams are also administered at our center for those who wish to certify their Turkish language skills.

With an education system in line with the European Language Portfolio, We are at your service at every level (A1, A2, B1, B2, C1) and in every semester to certify the knowledge of

Turkish in classes of 15-20 students at most. Turkish; We are learning by talking, listening, interacting, reading, watching, traveling and seeing, discussing and having fun.

Skill s	Highest Grade	Lowest Grade
Listening	25	15
Reading	25	15
Dialogue	15	9
Verbal expression	10	6
Writing	25	15
Total	100	60

Students are required to complete five terms at TOMER in order to reach the C1 level. For the 2023-2024 academic year, the total cost of these five terms is anticipated to be close to \$1000.

Department of Health, Culture, and Sports Recreational Activities

As the Health, Culture, and Sports Department of Necmettin Erbakan University, we invite you to an exciting adventure with the 2023-2024 activities! You will spend an entire semester engaging in enjoyable activities such as paragliding in Konya Karapnar, hiking in the Seydişehir lakes region, scuba diving in Antalya Kemer Goynük, and rafting in Antalya Manavgat Koyurülü Canyon.

The next term will continue with the same level of excitement! We bring you back together through engaging activities. The Koprülü Canyon rafting event in Antalya Manavgat and the scuba diving event in Antalya are among the activities we have planned. You will appreciate nature through these activities.

As Necmettin Erbakan University, our goal is to provide you with unforgettable moments in contact with nature and the opportunity to make new friends. Our activities aim to foster your personal growth and equip you with the knowledge and skills necessary to compete on the international stage.

Master's Degree with No Thesis at NEU Institute of Educational Sciences

The non-thesis master's program offered by our institute is an excellent opportunity for students from all over the world, particularly in terms of expanding professional opportunities in the fields of work and education. This program allows students to specialize in a specific field, allowing them to gain more in-depth knowledge in areas related to their undergraduate studies. The program lasts one year, with students taking courses for two semesters and then finishing with a term project for one semester.

Our institute's non-thesis master's program provides a more flexible program because students are not required to write a thesis. Students can gain practical experience and improve their professional competencies in this way during the non-thesis master's program. Furthermore, program graduates can pursue career opportunities in the business world.

The program includes at least ten courses and a term project course for a total of 30 credits and 90 ECTS credits. Students finish the program by completing a term project during the semester in which they take the term project course. The program requires a minimum of two semesters and a maximum of three semesters to complete. Students who successfully complete the program are awarded a master's degree diploma without a thesis, with the name of the program on the diploma. Students who continue with the program have the option of transferring to the relevant master's program with thesis within the quota.

This non-thesis master's programme offered by our Institute for international students is a huge benefit, especially for students who want to advance in the worlds of education and business and add a new dimension to their careers. The program assists international students in gaining the necessary competencies while also providing them with the opportunity to advance their careers.

Non-Thesis Master's Programmes Open in our Institute of Educational Sciences

1. Classroom Education Programme
2. Preschool Education Programme
3. Department of Physics Education
4. Department of Chemistry Education
5. Department of Biology Education

6. Department of Mathematics Education
7. Department of Geography Education

18. Leadership and Management in Special Education Institutions Programme
19. Special Education Programme
20. Autism Spectrum Disorder in Early Childhood

NEU Institute of Educational Sciences Master's Degree with Thesis

The Master's Program with Thesis aims to teach students how to gather, evaluate, and interpret information using scientific research methods. This program requires at least eight courses, a seminar course, a specialization course, and a thesis study, for a total of at least 24 credits. The program includes at least 120 ECTS credits in total, including the specialisation course, seminar course, other courses taken, and thesis research, provided that one academic year is not less than 60 ECTS credits.

The Master's Program with Thesis is divided into four semesters and begins with the semester in which the courses related to the registered program are taught. It must be finished in six semesters. Four semesters is the maximum time frame for successfully completing credit courses and seminar courses. Each student in the Master's Programme with Thesis is assigned an advisor. The advisor chooses the courses the student will take, monitors the student's learning progress, and directs the thesis research. The advisor is appointed by decision of the institute board of directors and is chosen from among the faculty members. A second advisor is appointed when the nature of the thesis study necessitates more than one advisor. Students have the option of changing advisors during the thesis stage.

The tuition fee of the programme is calculated on a semester basis. For the 2023-2024 academic year, the tuition fee for one semester is 7500 TL (on November 11th 2023 approximately 260 USD) and the fee for two semesters is 15.000 TL (on November 11th 2023 approximately 520 USD)

Open Master's Programmes with Thesis in our Graduate School

Mathematics Education	2	Graduating from any master's programme with thesis
Science Education	1	Graduating from Science Education master's program with thesis.
Biology Education	1	To graduate from any graduate programme.

Foreign Applicants' Application Process

- Foreign applicants who have the necessary documents can apply between 04 - 18 December 2023 (<http://basvuru.erbakan.edu.tr>)
- Applications containing false information, an incorrect application, a forged signature, missing documents, e-mail, and cargo will be rejected.
- Candidates must meet the special conditions specified in the announcement.
- Candidates are not permitted to apply to more than one program in the same semester.
- Foreign students who are studying or enrolled in a graduate program at our institute or another institute are eligible to apply.
- Foreign nationals who apply to graduate programs taught in Turkish are not permitted to study in Türkiye or at a higher education institution abroad unless they have graduated from the Yunus Emre Institute or Turkish language teaching approved by the Yunus Emre Institute or the Council of Higher Education with a score of at least C1 or equivalent from the Turkish proficiency exam administered by one of the t To be considered successful, foreign applicants who do not meet these requirements must take a one-year leave of absence to learn Turkish. Foreign applicants who fail to pass the Turkish exams, which will be administered in the same manner as before, within a year are considered higher education students. Admission to undergraduate, doctoral, and proficiency in art programs is denied.
- The relevant department of science completes the evaluation procedures of candidates applying for foreign student quotas, undergraduate and graduate programmes courses they have studied and their grades, letters of reference, other personal information and documents, if any.
- With the recommendation of the institute's head and approval of the institute board of directors, the science branch scientific preparation program can be used to eliminate deficiencies of students enrolled under the scope of the foreign student quota.
- Students who are eligible to enroll as a foreign student must submit the original residence permit and other documents to the relevant institute within two months of their enrollment date. Those who fail to submit the original residence permit and other documents to the institute within the specified time frame are dismissed.
- Online applications will be accepted at <http://basvuru.erbakan.edu.tr>

The following documents must be uploaded to the Master's degree application portal:

1. Undergraduate diploma and certified Turkish translation (all documents in a single PDF file) (Mandatory)
2. Passport. (In PDF format by scanning the side containing identity information and the part with the validity date) (Mandatory)
3. Certified Turkish translation of transcript. (Document showing the courses and grades taken during undergraduate education) (Mandatory)
4. Motivation Letter: Applicants should submit a motivation letter explaining why they are applying to our master's program, their research interests, goals and future contributions. Based on this letter, we will be able to assess their academic motivation and research potential. (Mandatory)
5. Curriculum Vitae (CV): Candidates should submit a CV including academic and professional experience, publications, research projects and other relevant information. (Mandatory)
6. Residence permit or study-related residence permit. (PDF format) (Optional)
7. Turkish language proficiency certificate (document showing at least C1) (PDF format) (Optional)
8. School recognition or equivalency certificate. (Optional)
9. Letters of Reference: Letters of reference are requested from people known to the candidates from previous academic or professional experience. References will be taken into account when assessing candidates' abilities, working styles and research potential. (Optional)

The following documents must be uploaded to the PhD Degree application portal:

1. Undergraduate diploma and certified Turkish translation (All documents in a single PDF file) (Mandatory)
2. Master's degree diploma and certified Turkish translation. (All documents in pdf format as a single pdf) (Mandatory)
3. Graduate and undergraduate transcript and certified Turkish translation (All documents in a single PDF file) (Mandatory)
4. Passport. (In PDF format by scanning the side containing identity information and the part with the validity date) (Mandatory)
5. Motivation Letter: Applicants should submit a motivation letter explaining why they are applying to our master's program, their research interests, goals and future contributions. Based on this letter, we will be able to assess their academic motivation and research potential. (Mandatory)
6. Curriculum Vitae (CV): Candidates should submit a curriculum vitae including academic and professional experience, publications, research projects and other relevant information (Mandatory)
7. Research Proposal: In this proposal, candidates should describe in detail the topic they would like to research and how they plan to work on it. The proposal helps us to determine the candidate's interest in the research topic and his/her research skills. (Mandatory)
8. Residence permit or study-related residence permit. (PDF format) (Optional)
9. Turkish language proficiency certificate (document showing at least C1) (PDF format) (Optional)
10. School recognition or equivalency certificate. (Optional)
11. Letters of Reference: Letters of reference are requested from people known to the candidates from previous academic or professional experience. References will be taken into account when assessing candidates' abilities, working styles and research potential. (Optional)

*** Application results will be notified to candidates by e-mail.
